Hello Cheryl, thanks for the note. I don't think we will participate in your tour.

WREN STENGER

Director

Multimedia Planning and Permitting Division

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Subject: Upcoming Visit to Tire Processing Facility in [REDACTED]

Good morning Susan and Wren:

I hope you both are doing well. I wanted to reach out to you today to let you know that on Friday, June 10, a small group of EPA staff and managers from ORCR and ORD, as well as the Centers for Disease Control, will be visiting the [REDACTED] tire facility in [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

in support of the multi-agency research action plan on the use of tire crumb on playing fields and playgrounds (see: www.epa.gov/tirecrumb). The purpose of the visit is to observe and learn about the tire crumb manufacturing process and to provide an opportunity for the study researchers to ask questions about the source and variability of tires, processing technologies, and other variability in tire crumb manufacturing. The tour is expected to occur from 9:00am - 11:00am. If you or anyone in your office would like to join us on the tour, please let me know by COB Friday, June 3. We also would be happy to talk with you more if you have any questions about the federal research action plan and our role in implementing it.

Best Regards,

Cheryl
